President
Japan Carbon Frontier Organization (JCOAL)

NOMINAL SUPPORT FOR CLEAN COAL DAY 2026

On behalf of the Government of the Republic of Botswana, I am pleased to confirm our support for the Clean Coal Day 2026.

Botswana is endowed with abundant coal reserves, and coal remains an important component of Botswana's energy resources. In spite of this, Botswana continues to pursue the safe, efficient and environmentally-friendly use of coal, with emphasis on the need to transition from coal dominated power generation to a more diversified energy mix, amongst others, focusing on solar and wind energy.

Botswana recognises the important role that Japan Carbon Frontier Organisation (JCOAL) continues to play in advancing international dialogue on energy security, carbon neutrality, and the deployment of clean energy technologies.

We look forward to a successful Clean Coal Day 2026 event.

Yours faithfully,

Prof. Boga Thura Manatsha
Ambassador-Designate
