Re: NSW support for the 35th Clean Coal Day in Japan International Symposium 2026 and Energy Security with Decarbonisation Symposium 2026

Dear Mr Tsukamoto,

On behalf of the New South Wales (NSW) Government, I am pleased to confirm our support for the 35th Clean Coal Day International Symposium 2026 and the Energy Security with Decarbonisation Symposium 2026 in Tokyo, Japan.

As NSW and Japan both pursue net zero emissions by 2050, I commend Japan's leadership in bringing together global public and private sector leaders to advance collaboration on clean coal utilisation and decarbonisation.

NSW remains a trusted supplier of high-quality coal to international markets, particularly Japan. NSW Government continues to support our coal industry, its workforce, and our export partners. This commitment is reflected in the recently released *NSW Coal Industry 2026–2050*, which sets out a clear and balanced framework for the sector's future.

We value Japan's longstanding partnership with NSW and our resources sector, and I wish the Japan Carbon Frontier Organization every success in delivering these important events in 2026.

Sincerely,

David Lawson

Trade & Investment Commissioner, Japan & Korea
